

OUTDOOR RECREATION

COMPREHENSIVE SEVERE WEATHER INTELLIGENCE FOR VISITORS AND STAFF

Protect and inform visitors and staff about dangerous weather. Automatically clear outdoor areas when lightning approaches. Monitor environmental factors that can affect activities.

OVERVIEW

Outdoor safety is paramount to facilities managers. We provide a host of severe weather intelligence products and services to ensure your recreational facility or park operations run smoothly. Our solutions are scalable and we work with you to determine the best approach based on your goals.

BENEFITS

VISITOR SAFETY

- Our professional-grade weather stations track and analyze 25+ key atmospheric conditions. Know what's coming so you can plan your outdoor operations accordingly.
- Offer a reliable live weather resource for your members and community.
- Members can plan activities by visiting your website which has live weather and forecast information from your grounds.

METEOROLOGICAL SERVICES

Our professional meteorologists are available by phone 24/7 to provide breaking updates on changing weather conditions and forecasts specific to your location so you can prepare for what's coming.

AUTOMATED ALERTS

Outdoor facilities all over the US count on our Outdoor Alerting System to mitigate risk, standardize alerts, and manage outdoor activities.

Safety is everything. We aim to reduce injuries and create a positive experience for our visitors by providing the safest possible environment.

Trish Heffelfinger, Executive Director of the Maryland SoccerPlex
